

Simba Scanlon

September 12, 2022

Simba was a "Warrior" when he was 3 he went through some trama. Vet's told us he wouldn't live if we didn't take him to the hospital. I asked what so I have to do. It wasn't easy, my niece helped Simba get better and it took months. He was blind after his trama but you'd never know he couldn't see. We all Love and Miss you Simba our "Warrior".
