

Smokey Bobick

September 9, 2017

Smokey came into our lives when he was 8 weeks old. He was out of 2 cat litters at a barn where we boarded our horses. He was bit by a dog and had been stepped on by a horse. He was injured so I took him to my vet. After he healed I took him home. He was named "Smokey" and he was forever grateful to be in our lives as were we to have him as a family member. Smokey & I had a very special connection. He talked a lot & I enjoyed listening to all his different inflections in his adorable voice. Smokey was my little buddy--always by my side. Smokey will always hold a very special place in my heart & I will miss him dearly. We were truly blessed to have Smokey in our lives for 14 years.
