

Smokey Swiss-Carvalho

September 1, 2002 - April 2, 2021

Smokey came into my life when I was 7. I had no clue that this little dumpster kitty would be my sweetest companion for over 18 years. Smokey lived with me in 6 different places, found a wonderful cat dad in my husband, and some furry siblings along the way. He was my constant and I will miss him forever. He made his presence known and always got what he wanted which is a lesson I will carry with me.

“ This little guy did a complete 180 when he met me; from aggressively attacking Rachael's ankles to lovingly snuggling on my chest. I'm going to miss his incessant meowing for food at all hours of the day. Love you, buddy.
