

Sunshine Seibold

April 14, 2023 - April 14, 2025

Sunshine shared 2 beautiful years with us. It was impossible to be sad or troubled in her presence. I had no idea she was going to live up to her name so perfectly. I also had no idea how much love could be shared between the two of us. Sunshine was an ambassador for rats, changing minds every time we went into public...which was a lot! Everyone loved her! There are too many good things to say about her, absolutely not one bad thing. I hope that one person reads this or sees her picture and maybe reconsider any negative feelings about rats. I'll love you forever, my Sunshine...my little angel. We'll be reunited someday and I'll give you a million more kisses.
