

Tessa Tippie

July 9, 2020 - February 20, 2025

Tessa weighed 3# when I got her as a baby, and 5# when she died. She was a very picky eater so her favorite foods were mac & cheese and mashed potatoes, which she got occasionally. She gave her 11yr old Cavachon sister a hard time because she thought she was the boss, but most of the time she was just a cuddler. She followed me everywhere and slept with us every night. We went on vacation and she died in her sleep while we were gone!
