

Tigger Haner

March 27, 2008 - November 13, 2025

He was my soulmate and my biggest blessing in life. One Halloween night of 08 he was nestled in my mummy on the porch. He was so sickly but so sweet. I took him to the vet he was likely 7-8 months old and said that he would not make it. His lungs were full of roundworms. We made a pact that I would help him if he would fight for life. That day turned into seventeen years of friendship and family. We were inseparable. Loved car rides, naps, relaxing in the sun, movie nights, kisses, especially long hours of belly rubs and loud purrs. Don't forget that he Love pizza, chips, blueberries and grilled chicken. He was a total ham for pictures. He loved his pet goldfish Opal. This past week he had trouble breathing. He was battling congestive heart failure, fluid in his lungs and renal failure. Our last night together was his last fight. My heart broke. With all My Heart, Life, Joy and Soul we were blessed to have each other's Love. My Forever Tiggs
