

Tonks "Tonkita" Hardin

July 17, 2019

Tonks, usually called "Tonkita", brought so much joy to so many people. Everyone loved her sweet and sociable personality and we feel her loss tremendously deeply because she was such a presence in our lives. We are heartbroken that Tonkita is gone, but relieved that she is no longer suffering. Rest in Peace, sweet kitty, and thank you for 12 years of love and good memories. Love you forever.

Tribute Wall

“ I never got to know Tonks but I loved her through her stories and photos shared by her loving family. I know hearts are broken over this loss, but joyful at the time spent with her in her short, but long life. I keep you in my thoughts every day and hope that time will heal your hearts and happy memories take place of the pain. Much love from me, to you all.

“ My last beautiful memory with Tonks was the very last moment I held her. It'll always be burned into my memory of the sweet cat she was. I was telling her that I loved her and giving her kisses and telling her how much she meant to me and she just looked at me and burrowed her head into my arms and snuggled me, almost as if she was telling me she loved me too. I'll never forget that tender moment between tonks and I. She is forever in my heart. I hope you finally have all the crunchies your heart desires!
